## AN INFORMED CHOICE IS ALWAYS THE BEST CHOICE

CONSIDER THE FOLLOWING WHEN MAKING THE SELECTION THAT IS JUST RIGHT FOR YOU:

1. Type of chemical being stored
2. Applicable regulations
3. Capacity needed
4. Type of container being stored
5. Door and handle style preference
6. Warning label system
7. Performance testing (3rd party approvals)

## APPLICABLE REGULATIONS & APPROVALS

THIRD PARTY TESTING IS YOUR ASSURANCE OF PERFORMANCE.

## CODE COMPLIANCE:

Federal, provincial and local regulations may apply. Contact your local fire department for guidance.

OSHA 29 CFR 1910.106 / NFPA Code 30 Section 4.3.3

## CONVENIENCE & PROTECTION FACTORS

### DOOR STYLE PREFERENCE:

Whereas door style is usually chosen by preference, the Uniform Fire Code (UFC) mandates the use of self-closing cabinets. Cabinets with self-closing and self-latching doors provide an extra measure of protection.

### MANUAL

Economical manual close doors permit doors to open a full 180°. When pushed closed they will automatically self-latch.

### SLIDING

A single bi-fold, sliding door glides smoothly on a spring loaded track for easy, one handed access to cabinet contents. It self-latches and self-closes, and is equipped with a fusible link to hold the door open during use and melts at 165°F (74°C) to automatically close door under fire conditions.

### SELF-CLOSE

This style self-indexes, self-latches and self-closes to automatically shut doors upon release. Mechanism is concealed in the top wall, maximizing available shelf space. Fusible links hold doors open during use. In the event of a fire, fusible links will melt at 165°F (74°C) to automatically close doors.

All Justrite® cabinet doors feature a continuous piano hinge for smooth operation, a three-point closure with keyed lock and our exclusive self-latching mechanism on all door styles.

## DOOR HANDLE:

### SURE-GRIP® U-LOC™ HANDLE

Attractive, self-latching paddle style handle offers easy fingertip access to contents. Flush-mounted design keeps aisles clear and reduces dangerous "catches" from passing traffic. Exclusive padlock tag offers added security. Padlock serves as a visual deterrent and provides the flexibility of the lock being master keyed, keyed alike or keyed different for convenience.

## REFLECTIVE WARNING LABELS:

### HAZ-ALERT™ SYSTEM

When illuminated with a flashlight, hazardous warning labels burst with high visibility under fire conditions or power outages. Labels are strategically positioned in high and low zones to help firefighters easily locate volatile liquids.

## TYPE OF CHEMICAL TO BE STORED:

Using colour and labelling in your storage practices helps identify, organise and segregate liquids. It also helps fire department personnel recognise hazards when responding to fire situations.

## CAPACITY NEEDS:

A wide variety of code compliant Justrite® cabinets are available in sizes ranging from 4 gallons US (15 litres) to 120 gallons US (454 litres). Smaller cabinets allow solvents to be stored at worksite locations saving costly trips to a central storage room. Undercounter, wall mount and compact style cabinets add to safe storage, even when space is at a premium. For high capacity storage, larger sized cabinets designed specifically to house 30 gallon US (114 litres) or 55 gallon US (208 litres) US drums are available.

## PERFORMANCE TESTING:

Justrite® cabinets are third party tested by Factory Mutual Research and/or Underwriters Laboratories and built to OSHA/NFPA standards.

## A SELF-LATCHING CABINET MAKES A DIFFERENCE!

A self-latching door and handle is critical as it does not require the user to manually rotate a handle to ensure the three-point latch is properly engaged. This is an important detail since an unlatched cabinet leaves the flammable contents exposed to a potential fire, where every single second of protection counts. A safety cabinet must be latched for it to perform according to code, providing maximum safety under fire conditions. A stainless steel bullet latching system offers optimum longevity with increased heat resistance.

# Safety Cabinets

## SURE-GRIP® EX FLAMMABLE STORAGE CABINETS

- Double wall welded 18-gauge steel construction with 1 1/2" of insulating air space
- 3-point stainless steel bullet latches offer longevity and increased heat resistance
- U-Loc™ handle keeps aisles clear and offers fingertip access; comes with 2 keys or accepts optional padlock for greater security
- Two flame arrester vents and ground wire connection screw
- 2" deep leakproof sill
- Adjustable leveler legs, and galvanized SpillSlope™ shelves that adjust on 3" centres
- Haz-Alert™ reflective warning labels
- Durable yellow powder coat paint finish provides long life and exceptional chemical resistance
- Meet NFPA and OSHA requirements
- FM approved

## CORNER FLAMMABLE SAFETY CABINETS

- Fits nicely into an empty corner to maximize the amount of space available for storage
- Improve efficiency by locating materials near point-of-use and get the most out of limited floor space
- Designed to meet OSHA, NFPA 30 and NFPA 1 standards
- Features include a fail-safe, three-point self-latching door, double-walled construction with 1 1/2" air space, dual vents, a grounding connector and a large trilingual warning label identifying contents
- Leak-proof 2" sump in cabinet bottom safely collects spills
- Galvanized safety shelves adjust on 3" centers for versatile storage
- Available in 30 and 45-gallon capacities, with both manual and self-closing door styles
- Manual-close doors open to a full 180 degrees and self-latches when pushed closed
- Self-close doors shut and latch automatically when a fusible link melts at 165°F (74°C)
- Unique, concealed self-closing mechanism offers obstruction-free access to contents

## SURE-GRIP® EX SPECIALTY CABINETS

### STORE SMALLER QUANTITIES NEARBY!

When storing smaller quantities of flammable liquids at a work station or adding to existing storage capacities, specialty cabinets make it possible to store flammables safely even when available space is at a minimum. These cabinets offer U-Loc™ handles and come with a double key set or accept an optional padlock for greater security. Chemical resistant powder coat paint resists corrosion for years of service. They also have Haz-Alert™ reflective warning labels to offer visibility under dark conditions. Meet NFPA and OSHA regulations.

### WALL MOUNT SAFETY CABINETS

- Store small containers without taking up extra floor space
- Mounts easily with furnished brackets

SAQ040

### SLIMLINE SAFETY CABINETS

- Small footprint allows placement almost anywhere

SAQ033

### STACKABLE PIGGYBACK CABINETS

- Can be used singly or stacked to provide expanded or segregated storage
- Suitable for wall mounting or countertop

SAQ031

### UNDERCOUNTER SAFETY CABINETS

- Designed to fit under most counters
- Designed with a kick plate to match existing casework

SAQ041

### COUNTERTOP & COMPAC SAFETY CABINETS

- Improved access to often used liquids, without compromising safety
- Portable size keeps work areas flexible

SAQ036

SAQ034

### MINI SAFETY CABINETS

- Offers the smallest footprint
- Hold small quantities of flammables for cleaning and maintenance at point-of-use
- Three bungee cords keep contents in place during transportation on service vehicles or carts

## DRUM STORAGE SURE-GRIP® EX SAFETY CABINETS

Suitable for storage of larger quantities of flammable liquids and have all the same features as Justrite®'s standard safety cabinets.

### SURE-GRIP® EX VERTICAL DRUM STORAGE CABINETS

- Safely store one or two 30 to 55-gallon US drums
- Half-depth shelf allows additional storage of Class III flammables
- Accommodates drums equipped with pumps or funnels so cabinet can be used for waste accumulation or as a pumping station
- Rollers at bottom of cabinet facilitate drum movement (**sold separately**)
- Ramp for drum cabinets (**sold separately**) aids in loading drums with a hand truck

### SURE-GRIP® EX HORIZONTAL DRUM STORAGE CABINETS

- Designed to house drums being used for gravity flow dispensing
- Interior provides room for a drip can and includes tracks to guide a cradle into position, drum cradle not included

### SURE-GRIP® EX DOUBLE-DUTY SAFETY CABINETS

- Combines vertical drum and safety storage into one partitioned cabinet
- Safely stores up to twelve 5-gallon US safety cans on the left side, and one vertical 30 or 55-gallon US drum on the right side
- Both compartments have an independently self-latching, locking door for maximum protection under fire conditions

## VAPORTRAP™ FILTERS

- Stainless steel wire mesh cartridge containing activated carbon, absorbs volatile organic compound (VOC's) vapours
- Improve your work environment by reducing employees inhalation exposure to harmful VOC's and lowering emissions of VOC's into the atmosphere
- Cylindrical design allows 360° airflow for maximum surface contact
- High strength magnets offer flexible placement/repositioning anywhere within the cabinet
- Date notation area on label serves as a reminder for replacement; life cycle varies based upon vapour types and concentrations
- Contains two filters per package

## SURE-GRIP® EX PAINT & INK SAFETY STORAGE CABINETS

Separate and identify Class III combustibles in high performance paint and ink safety storage cabinets. They have the same safety and quality features and options that are available in Justrite®'s safety cabinets for flammables with additional shelves.

- Multiple shelves are ideal for 1-gallon paint cans (Class III liquids)
- Cabinets are available in 20, 40, 60 and 120-gallon capacities
- U-Loc™ handle comes with double key set or accepts optional padlock for greater security
- Haz-Alert™ reflective warning labels
- Durable red powder coat paint finish easily identifies contents and is highly chemical resistant
- Meets NFPA and OSHA regulations
- FM approved

# Safety Cabinets

## POLYETHYLENE ACID CABINETS

One-piece molded body for maximum chemical resistance and leak protection. Both units can be padlocked to prevent unauthorized access.

### COUNTERTOP ACID CABINET

- Spill tray inside the cabinet is removable for easy cleaning
- Includes a handy work tray stored under cabinet
- Door can be hinged from either side

### ACID CABINET

- Two adjustable shelves and storage in doors for small containers
- Removable sumps for easy cleaning
- Two compartments allow segregation of non-compatible corrosives
- Two vent holes on the back of cabinet; one at the bottom left and one at the top right
- Cabinet top doubles as a handy workspace
- Cabinet is sized to fit under counter or free standing and can be secured to wall for stability

## SURE-GRIP® EX ACID/CORROSIVE STORAGE CABINETS

Built to the same standards as Justrite®'s flammable storage cabinets with the addition of poly tray liners and a specially formulated epoxy, powder coat paint.

- Poly liners on shelves and poly sump liner are removable for easy cleaning
- 30-gallon cabinet is also equipped with a polycabinet-top work tray
- U-Loc™ handle offers easy fingertip access and accepts optional padlock
- Undercounter model has a 3 1/2" H x 2 1/2" D kick plate to mount flush with other cabinetry
- Haz-Alert™ reflective warning labels
- Meets NFPA and OSHA regulations
- FM approved

**Note:** Not to be used with phenol, nitric and sulfuric acids.

## CHEMCOR® LINED ACID/CORROSIVE CABINETS

Unique, flame-coated ChemCor® thermoplastic liner is applied to Justrite®'s acid/corrosive safety cabinets for unsurpassed corrosion protection and fire protection.

- 100% seamless liner on all interior walls, ceiling, sump, inside doors and shelves protects exposed cabinet surfaces without gaps
- Seam-free surface eliminates the need for rivets or fasteners which risk corrosion from seep-through chemicals
- U-Loc™ handle comes with double key set or accepts optional padlock for greater security
- Haz-Alert™ reflective warning labels
- Durable, thermoplastic non-porous interior coating resists staining and cleans-up easily
- Maximum protection from harsh acids and corrosive chemicals plus fire protection and code compliance in a wide variety of double-wall steel safety cabinets
- FM approved

## DOCUMENT STORAGE BOXES

### ACCESSIBLE STORAGE & PROTECTION

- Weather resistant, no metal parts to corrode - keeps papers clean and dry in dusty, harsh environments
- High density polyethylene is durable, rustproof and easy to clean
- Mounts on cabinets, machinery, equipment or walls for fast, easy access to information at point of use
- Lock holes on medium and large units accept padlock or zip ties
- Four built-in mounting holes on medium and large sized units provide added mounting options
- Designated area to add your own labels or optional label pack available
- Also handy for portable document storage
- High visibility red colour
- Keeps MSDS documents for compliance with OSHA 29 CFR 1910.1200
- Optional label pack includes 4 yellow labels (2 blank and 2 printed - MSDS and instruction manual, sold separately)
- Includes heavy-duty tape for drill-free mounting

## TYPE I SAFETY CANS

- Compliant Type I safety cans are designed with a single spout for filling and pouring of all types of flammable liquids
- High performance, chemical resistant stainless steel flame arrester that stops flashback ignition, provides faster liquid flow, and offers exceptional durability and corrosion protection for long life
- Self-venting, self-closing leak tight lid prevents ruptures from pressure build-up and controls vapours and spills
- Unique counterbalance design with full-fisted grip handle offers gravity-assisted pouring
- Warning label includes large ID zone for user labelling to avoid misuse, reduce the potential for incompatible mixtures, or may be used to designate department or individual owner
- Optional poly funnel offers targeted pouring
- Finished in a tough powder coat paint, Justrite® cans resist chemicals and stand up to heavy abuse
- FM approved, UL/ULC listed
- 10-year limited warranty

# Safety Cans

## TYPE I POLYETHYLENE SAFETY CANS

Choose Type I non-metallic safety cans when dent and chemical resistance are important. Constructed of high-density polyethylene offering distinct advantages over steel units.

- Dent, chip and puncture-resistant polyethylene stands up to harsh corrosives
- Current carrying carbon insert grounds the opening and flame arrester
- Self-close spout and pressure relief mechanism
- Flame arrester prevents ignition sources from entering the can
- Stainless steel hardware provides chemical protection
- FM approved

## POLYETHYLENE LIQUID DISPOSAL CANS

- High density polyethylene cans contain corrosives and flammable liquids better than conventional metal cans
- Large opening for better control when disposing of liquids
- Fixed position handle allows lid to stay open for easier pouring
- Flame arrester guards against outside sources
- When closed, the cap automatically vents between 3 and 5 PSIG
- Stainless steel hardware provides chemical protection
- FM approved

## DISPENSER BOTTLES

**JUSTRITE®**

Dispense flammable liquids and solvents safely without waste or exposure.

- Small size allows for easy, one-handed dispensing of liquids directly onto work surface
- Brass dispenser valves are leak proof and self-closing
- Minimises spills and waste
- Bottle design is textured for firm gripping
- FM approved for flammables

## DISPENSING SQUEEZE BOTTLES

Allow safe dispensing of liquid small components or sub-assemblies with a minimum of over-spray. Squeezing the bottle produces a fine stream of liquid.

- Low-density polyethylene with stainless steel wire that allows stem to be shaped to reach "hard to get at" areas

SYMBOL OF QUALITY

## MINI BENCH-TOP OILY WASTE CANS

- Small footprint is convenient in confined work areas
- Constructed of durable galvanized steel
- Easily accommodates counter top applications
- Specially designed SoundGard™ lid significantly reduces lid closure noise
- Fire resistant design makes it ideal for disposing of hazardous waste materials like swabs or wipes that contain flammable solvents, adhesives, or cleaning agents
- Compact height easily accepts standard long cotton-tip applicators used for cleaning parts
- Lid opens to a maximum 60° and is self closing to minimize the chance of fire caused by spontaneous combustion
- Chemically resistant red powder coat paint finish for extended service life
- Leak-proof 0.45-gallon (1.7-L) capacity container
- Reusable, will not rust or puncture
- Fire tested and FM and OSHA approved

\* 6 1/2" (165 mm) diameter across the top including the limit stop

## FOR EMERGENCY EYEWASH EQUIPMENT SEE PAGES 62 - 73

## OILY WASTE CANS

OSHA compliant oily waste cans are essential whenever solvent cloths and wiping rags are used.

- Self-closing cover reduces oxygen source to prevent fire from starting
- Round construction and raised bottom encourage air circulation to disperse heat and prevent rust
- Rugged galvanised steel body in a variety of sizes accommodate any work area
- Carrying handle for portability
- 6 - 21 US Gal. foot-operated models are FM approved and UL listed
- 2 US gallon hand-operated, countertop model is FM approved

## DRIP CANS

- Ideal for placement below drum faucets, drain or valves to catch drips or overflows of liquids
- Perforated metal fire baffle acts as a flame arrester to protect contents from fire exposure
- Catches up to one US gallon of liquid
- Top removes for quick cleaning
- Made of 24-gauge coated steel with a durable powder paint finish
- Easily portable with handy side handles
- 9 3/8" OD x 4 1/2" H
- Weight: 3 lbs.
- FM approved

Order No. SAH514  
Mfg. No. 10376

## PLUNGER CANS

- Dispense flammable liquids and solvents safely onto cloths or swabs without waste or exposure
- Plunger fills upper pan for soaking
- Surplus liquid drains safely back into can
- Brass pump parts resist corrosion
- Steel and polyethylene cans available
- FM approved

SC309

SC310

## FUSIBLE LINK SELF-CLOSING DRUM COVERS

- Convert open top 55 US gallon steel drums into fire-safe receptacles for combustible trash
- Replaceable fusible link assembly inside the cover melts at 160°F, automatically slamming the cover shut if a fire occurs in the drum
- Steel construction
- Solvent resistant, red baked-on enamel finish
- Fits drums from 22 1/2" to 22 3/4" in diameter
- Weight: 16 lbs.
- FM approved.
